

The Equipment Purchasing Journey

1

Contact Equipment Providers to Review Equipment Options and Pricing

Quote should include equipment, installation, removal of old equipment, shipping, taxes, and training if required

Your monthly payment is based upon the amount financed, your credit history, and the length of financing.

2

Decide Payment Options

Most common options are:

- Cash
- Bank borrowing or
- Equipment financing

Equipment financing offers quick approvals and no other collateral requirements

The most common financing term is 5 years

Equipment financing interest rates are fixed, protecting you if interest rates rise

Financing requires only first and last months payments.

3

Apply for Financing Approval

Equipment financing generally requires a one page application, which can be completed online or faxed

Bank financing generally requires a full financial package and review

4

Order Equipment

Financing source will advance funds to equipment provider as down payment for equipment and work

5

Equipment is Installed

Final payment to equipment provider made upon satisfactory completion of installation

6

Realize Benefits From Your Investment

If purchasing new dispensers, adding LED Lighting tells your customers you've upgraded their experience, enhances security and saves you money on your energy bill
