

Cybera Security and Networking Package for Fueling Industry Convenience Stores

Bring your convenience store technology up to speed with this state-of-the-art cloud security and networking package from Cybera. We make it easy for you to turn your basic Internet connection into a full suite of secure, cloud-managed apps and services for running your convenience store and for creating outstanding guest experiences. Based on SD-WAN (software defined wide area networking) technology, the Cybera Security & Networking Package offers a multi-layered security approach that addresses all your applications needs today and in the future.

Features

Secure Payment Processing—PCI compliant cloud payment network, including a managed firewall, ICASA certified edge device and more, with secure connectivity to your payment processor

Compliance Assistance—Helps address certain aspects of your PCI compliance needs while reducing complexities

Credit Card Transaction Continuity—Includes embedded 4G wireless, enabling automatic failover when the primary Internet connection fails

Leverage Your Own Broadband—Keep your existing Internet connection

Operations and Maintenance—Fully managed by Cybera. World-class, USA-based 24 x 7 x 365 support providing expert technical assistance when you need it. SmartView portal lets you check system status anywhere
